

ARE YOU READY FOR MAJOR HEALTHCARE CHANGES COMING SOON TO CMS?

Source: spacecostdaily.com

Join 11,500 of your peers and become a member of the Great Lakes Practice Transformation Network (GLPTN)

The GLPTN is a groundbreaking new collaboration designed to empower providers with information and support to transform their practices to deliver better health and better care at a lower cost. We offer a range of highly customized, flexible services, including:

- **Implementation Science** – adopting evidence-based practices into routine care by personalizing the evidence to each clinician’s local environment
- **High-reliability practices** which consist of Lean and Six Sigma
- Personalized **population health** management
- Data-driven, **informed decision-making**, including MU, PQRS, VBP, and MIPS
